- Currently pursuing a Mobile Application Development and Strategy postgraduate program at George Brown College, with a Bachelor's degree in Computer Engineering from FAESA.
- Experienced in full-cycle web development, adept at translating business needs into customized technical solutions with a proactive personality and a mindset for continuous learning and improvement.
- Effective communicator within interdisciplinary teams and diverse client environments.

WORK EXPERIENCE

Web Developer (contract)   **January 2023 – July 2023**
QDR Entertainment   *Toronto - ON, Canada*

- Led the development of websites for multiple clients, delivering customized solutions using HTML, CSS, JavaScript, Next.js, Styled-components and GraphQL to create dynamic and engaging websites that aligned with clients' brand identities.

Freelance Web Developer   **July 2021 – Current**
Great Lake Cabins, Movin' Electric Vehicles, Coworking Sao Paulo, Others   *Toronto - ON, Canada*

- Worked closely with clients to understand business requirements, translating them into technical specifications and delivering tailored solutions.
- Implemented a mobile-first development strategy, focusing on responsive design, user experience optimization, page load speeds and SEO for each project, ensuring seamless functionality across various devices, contributing to enhanced user experience and increased online visibility for clients.
- Proficiently utilized HTML, CSS, JavaScript, React, Next.js, Figma, Headless Wordpress, GraphQL, REST API, and Git to create dynamic and visually appealing websites.

Frontend Developer   **January 2019 – January 2021**
LabTel - Telecommunications Laboratory   *Vitória - ES, Brazil*

- Contributed to an Agile software development team in remaking a government institution's platform for managing scholarships to private universities across the state of ES in Brazil.
- Developed over 50 user interfaces for the web application, combining aesthetic design principles with functional requirements utilizing TypeScript and Angular.
- Authored detailed project documentation and conducted training sessions for clients on using the new scholarship management system, facilitating a smooth transition.

Problem Analyst   **March 2018 - December 2018**
Nexa Tecnologia   *Vitória - ES, Brazil*

- Managed IT sector problems for Vale, a global mining company, adhering to ITIL best practices.
- Investigated root causes of problems impacting workflow, identifying underlying issues, communicating with other teams and maintaining data visualizations to support business decisions.
